Creative Showcase
Explore a range of creative techniques

This course is aimed at those with experience using Adobe Photoshop or who have previously attended the Intermediate Photoshop with Andrew Craigie course.

Creating stunning photographs, presentations or original art work in Adobe Photoshop requires a mixture of technical and artistic skills.

Many of the very technical tools in Photoshop can seem a little daunting. Curves, Levels and Alpha channels don’t sound very creative but can, with a little understanding of how they work, vastly improve photographs and open up to you a whole range of creative techniques and effects.

Through a range of practical, creative, activities this Masterclass will introduce you to advanced Photoshop tools and techniques in a straightforward and understandable way.

This content in this course is not specific to a particular version of Photoshop and is suitable for user of CS3, CS4, CS6 & CS6.

Venue

The session will take place in Parklands Country Club, Newton Mearns. Parklands is just two minutes from J4 of the M77, just outside Glasgow.
