

# CPD

“ I would recommend Eddie to any educators seeking to develop their teaching methodology with the confidence that they will receive instruction from a highly professional individual with a depth and breadth of technical and educational expertise.”

**Stephen Stott,**  
Education Program Manager  
Autodesk Inc.,  
Europe, Middle East & Africa

“ You delivered the best inset experience I have ever received in twenty five years of teaching. Your video tutorials are superb, thanks. We will definitely be subscribing to your website.”

**Steve Mylchreest,**  
Head of Design & Tech.  
Perth Academy

## COURSE CONTENTS

Introduction to 3D Sketching  
In Depth Assembly Exercises  
Background images in Rendering  
Lofting with Rails  
Setting up Lights  
Driven Constraints  
Controlling Motion  
A look at resources ‘out there’

## INTERMEDIATE LEVEL INVENTOR

Developing your practice in Autodesk Inventor in addition to an insight into effective teaching strategies.

**Date :** By arrangement

**Time :** 9.30 – 3.30pm

**Venue :** Your Premises

**Numbers :** Classroom capacity

**Cost :** £550 + Travel

This one day course at a venue of your choice, is aimed at Design & Technology teachers in High Schools who have taken their initial steps with Autodesk Inventor and are looking to build up their confidence and understanding.

The cost includes teaching material used in the delivery of the course on the day which can be used for future learning and teaching in the centre. All courses are recorded live and provided in the form of video tutorial material to participants.

Following a tried and tested workflow, the course will not only introduce you to the concepts in a sensitive manner but it will at the same time demonstrate a teaching strategy which will transfer well to the classroom.

Course Tutor, **Eddie Mack**, has over fifteen years experience teaching Design & Technology in both Secondary and Higher Education and will ensure you feel supported.

Participants can be assured of feeling they made the best use of their valuable CPD time during the course and also in the vital weeks afterwards, when they are able to play back the day's sessions while consolidating their learning.
